

# AROWGUARD

DRIVER PROTECTION SYSTEMS

**“Protect\* your most valuable asset...people”.**

AROW Global helps protect drivers by offering a variety of solutions for driver protection systems:

- › Custom design specific to each application and equipment
- › Build-to-print or reverse engineer existing systems
- › Full surrounds or partial barriers

Many options and features available:

- › Glass, acrylic or polycarbonate barrier construction
- › Polished stainless steel structural supports
- › Graffiti protection (single or multilayer films)
- › Security film options for added strength and anti-spall characteristics
- › Various colors/tints and optical characteristics

Contact us at [AskArowGlobal@arowglobal.com](mailto:AskArowGlobal@arowglobal.com)

and we will help you develop a protection solution that exceeds your expectations and meets the necessary ANSI standards.

\*AROWGuard systems help protect the driver by providing a barrier between the driver and passengers; level of protection depends on each design and material selection.
