

Framed Window Series

AROW's Evolution Framed Window Series feature a combination of the economies of traditional transom-hinged egress window designs with the premium performance and features associated with our legacy window series. Available in either standard or rapid-replacement glazing configuration and with or without hidden clamp-ring fasteners, the Evolution Series can be equipped with all available graffiti protection options offered including our 3rd generation sacrificial protection shields that may be replaced in less than one minute. Available in all common glazing and window configurations, a superior and updated low profile appearance adds an exceptional aesthetic appeal to this series of windows.

Product Features:

- Full contingent of window configurations available
- Exceptional functional performance
- Black or clear Class 1 anodized frame finishes are standard with no exposed surfaces
- Glazing available in tempered or laminated glass, acrylic and polycarbonate
- Interior graffiti protection options available for additional vandal resistance
- Premium fasteners and hardware
- Superior weather tight design
- All configurations available in egress or non-egress style
- Built and tested in accordance with FMVSS 217 guidelines with materials that conform to the applicable requirements of ANSI Z26.1 and the recommended practices defined in SAE J673

Product Assembly Options

QUICK CHANGE / RAPID REPLACEMENT GLAZING:

Our 3rd generation Rapid Replacement glazing system has been designed to allow removal and replacement of primary window glazing in under three minutes.

An optional 1/8" interior acrylic glazing shield may be added for vandal protection and can be replaced in under one minute without disturbing the primary glazing.

- Glazing retention is facilitated by a single proprietary welded spline.
- Spline is designed to withstand multiple installations.
- No removal of any components necessary for removal/replacement of optional sacrificial shield.

Quick Change / Rapid Replacement Glazing – Single welded spline

STANDARD GLAZING:

Our standard glazing option is a great alternative for those on a tight budget.

Although this design does not have the quick change glazing, these windows offer all of the product features our windows are known for including our superior weather tight design.

All of our standard glazing windows can be upgraded to Quick Change by changing out the multi-piece spline with the G3 Welded Spline. The G3 Spline can be sourced from any after-market provider of AROW Global products.

Standard Glazing – Multi-piece spline

Custom Windows:

AROW Global is constantly seeking out new markets and applications for our glazing systems. Through close customer partnership and strategic design initiatives, we have developed systems uniquely suited to the needs of specific customers. When it comes to glazing and window systems, AROW knows no boundaries.
